EXPERIENCE

Frontend Developer , RCGemini, Hissar, IN

Apr, 2025 – July, 2025

Paid role with performance-based raises (₹8,000 → ₹10,000)

- Independently managed and delivered two production-ready full-stack platforms, owning both frontend and backend development lifecycles.
- Launched the client website [wealthx.live](#) using React.js, Tailwind CSS, Node.js, and MongoDB — increased client lead capture by ~40% through responsive forms and faster load times (under 2s).
- Engineered a company CRM ([rcgemini.com](#)) with React (Context API) and Node.js backend, integrating secure auth, email automation, and real-time task tracking — improved internal workflow efficiency by over 30%.
- Completed both projects ahead of deadline; recognized with monthly pay raises and direct appreciation from stakeholders for quality and speed.

Full Stack Developer Intern, Kodu-Powered by Dhurina, Hissar, IN

Oct, 2023 - Apr, 2025

- Developed software components and user interfaces using HTML, CSS, JavaScript, and React JS, improving user engagement by 20% through enhanced functionality and design.
- Exploring web development with React JS to enhance cross-platform capabilities, aiming to expand market reach and reduce development time by 30%.
- Identified and corrected coding errors, resulting in a 15% reduction in bug reports and 25% improvement in application performance and user experience.

PROJECTS

WealthX – Client Investment Website

June, 2025

Live at [wealthx.live](#)

- Developed a fully responsive investment platform using React, Tailwind, Node.js, and MongoDB, optimized for all devices (100% Lighthouse mobile responsiveness).
- Replaced legacy lead form with integrated backend flow, boosting contact form submissions by approx. 40%.
- Deployed the full solution solo — from frontend architecture to backend deployment and production hosting.

RC Gemini CRM System

July, 2025

Internal Automation Tool – Live at [rcgemini.com](#)

- Architected and shipped a custom CRM using React (Context API) with a Node.js + MongoDB stack.
- Integrated secure login, real-time task updates, and auto-email alerts, cutting manual follow-ups by ~50%.
- Designed intuitive dashboards and admin tools that improved team response time and tracking accuracy.

Kodu Platform Landing Page

April, 2025

- Crafted a sleek, modular landing page using React.js and Tailwind CSS, achieving 95+ Lighthouse scores in performance, accessibility, and SEO.
- Achieved a seamless user experience validated by 100% positive feedback from test users and internal teams.
